# OUR CLIENTS

# GIS MAPPING SOLUTION

---

## 3D GEOSPATIAL SOLUTION WITH OPEN-SOURCE SOFTWARE

Drive innovation with open-source technologies like CesiumJS, delivering real-time interactive 3D geospatial visualizations for urban planning and beyond.

## 3D RENDERING & ARCHITECTURAL VISUALIZATION

Create lifelike 3D renderings that turn static architectural blueprints into dynamic and tangible experiences, enhancing stakeholder engagement.

## SMART DATA MANAGEMENT

Optimize the management of geospatial data across platforms. Our solutions provide structured insights for better decision-making and strategic planning.

## PUBLIC FACILITIES MANAGEMENT

Enhance public infrastructure operations with GIS-powered tools. Track assets in real time, optimize maintenance, and manage resources efficiently.

## INDUSTRIES SERVED

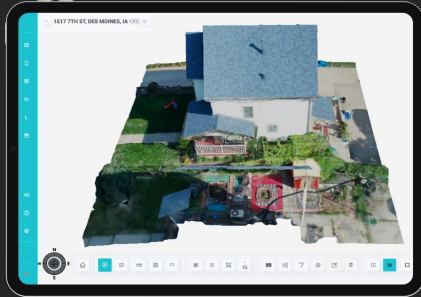

- Urban planning
- Engineering
- Government agencies
- Real estate
- Transportation

## COMPETENCIES

# SUCCESS STORIES IN GIS MAPPING SOLUTIONS

---

## Drone-Powered 3D Models For Property Evaluation

Advanced drone-based 3D web app for property inspections.

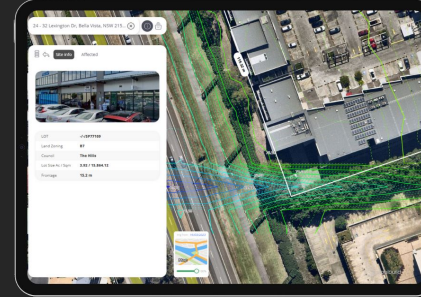

Delivered high-resolution models with varied tools that capture every details for data-driven evaluation.

## Innovative Cesium Solutions For Urban Visualization

A versatile 3D platform for urban planning, offering precise visualizations of cityscapes and infrastructure.

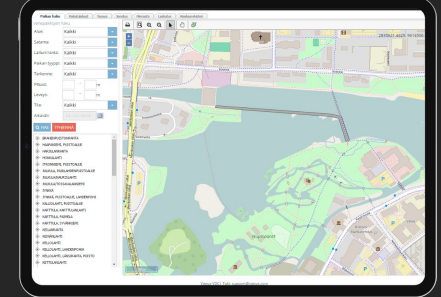

Delivering precise visualization to empower smarter and informed decision-making.

## Advanced GIS Drawing Application For Builders

Enables precise polygon editing and measurement tools.

Features curved lines, snapping, and GeoJSON for intuitive use.

## Facilities Access Management System

Manages facilities with 3D visualization and real-time tracking.

Integrates BIM, RFID, and map-based monitoring for better project oversight.

# DIGITAL TRANSFORMATION

---

*Elevate your business operations with BHSOFT digital transformation solutions, customized for diverse industries.*

## **INDUSTRIES SERVED**

- *Retail & Ecommerce*
- *Technology & Services*
- *Education & Training*
- *Restaurants*
- *Construction*
- *HealthCare & Medical*

## **COMPREHENSIVE ENTERPRISE SUITE**

Integrate essential modules like CRM, Marketing, ERP, HR, and more to streamline business operations across all departments.

## **CUSTOM MODULE DEVELOPMENT**

Tailor Odoo to meet your unique business requirements. From specialized modules for inventory management to POS systems, BHSOFT ensures that your operations are optimized for success.

## **SEAMLESS INTEGRATION**

BHSOFT enables integration of Odoo with third-party platforms such as payment gateways, e-commerce systems, and even IoT devices, ensuring smooth data flow and enhanced user experience.

## **POWERED BY**

# SUCCESS STORIES IN DIGITAL TRANSFORMATION

## Unified Systems for BIM Community Engagement

Centralize membership management and enhance community engagement.

Implemented Odoo 15 with AWS Cognito for SSO, multilingual support, and event management.

## Odoo ERP Customization For Streamlined Workflows

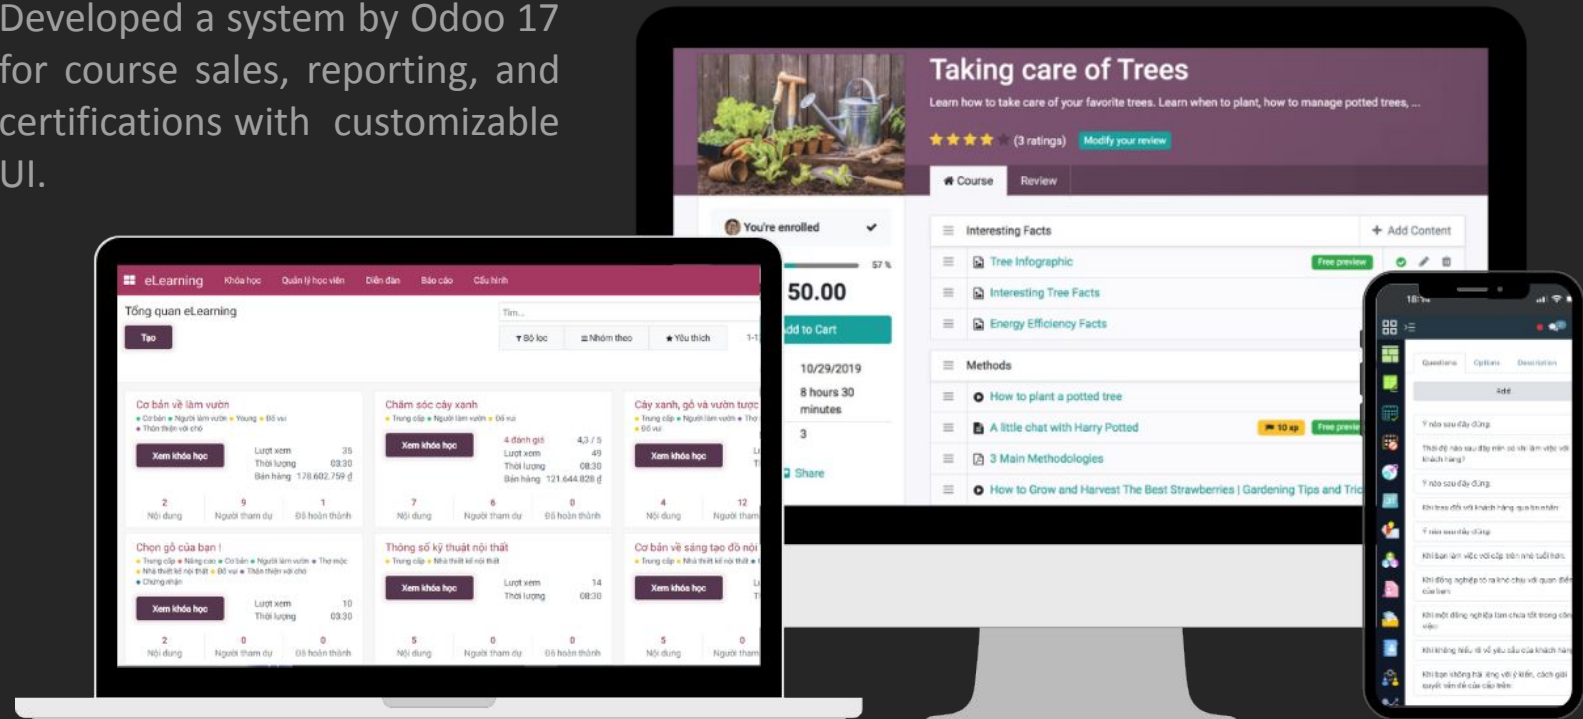

Optimize workflows & corporate learning.

Implemented Odoo 17 with AWS Cognito for SSO and designed an optimized, user-friendly interface.

## Customized Training Solutions For eLearning Management

Build a platform for managing online courses and user engagement.

Developed a system by Odoo 17 for course sales, reporting, and certifications with customizable UI.

# HR MANAGEMENT SOFTWARE SOLUTIONS

---

Revolutionize HR operations with BHSOFT's robust and scalable HR management solutions tailored for businesses across various industries.

## OUR CAPABILITIES

- SaaS HR Platforms  
Cloud-based systems with secure, on-the-go access for employees and HR teams.
- Recruitment & Onboarding  
Automate hiring processes, applicant tracking, and seamless onboarding.
- Payroll & Benefits Management  
Accurate salary processing with integrated tax compliance and deductions.
- Employee Performance Management  
Customized goal-setting, tracking, and data-driven insights.
- Workforce Management  
Time tracking, leave management, and smart labor scheduling tools.
- HR System Integration  
Connect existing systems like ERP and payroll platforms to unify data.

## MODULES WE BUILD

# AUTOMATION TESTING SERVICES

---

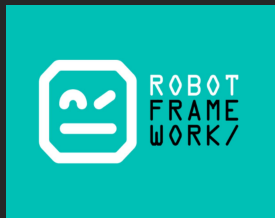

We leverage advanced techniques, AI-driven tools, and expert test engineering to streamline workflows, address technical debt, and exceed quality standards. Our solutions ensure robust, scalable software that consistently meets client expectations.

POSTMAN

Playwright

appium

## **MOBILE TESTING AUTOMATION**

Ensure seamless performance across devices, resolutions, OS versions, and mobile-specific features.

## **API TESTING AUTOMATION**

Guarantee reliable, secure, and high-performing APIs for seamless integration of internal and external systems.

## **END-TO-END TESTING AUTOMATION**

Deliver comprehensive E2E tests with detailed plans, robust execution, and ISO/IEC 27001 compliance.

# MACHINE LEARNING & ARTIFICIAL INTELLIGENCE

## GLEAN

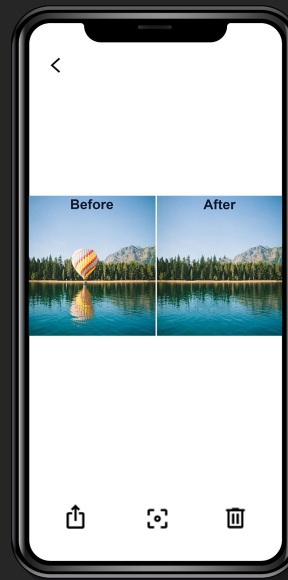

Leveraging the power of LLMs (large language models), GLEAN delivers an intelligent, fast, professional interactive experience for customers.

## MYOPIA

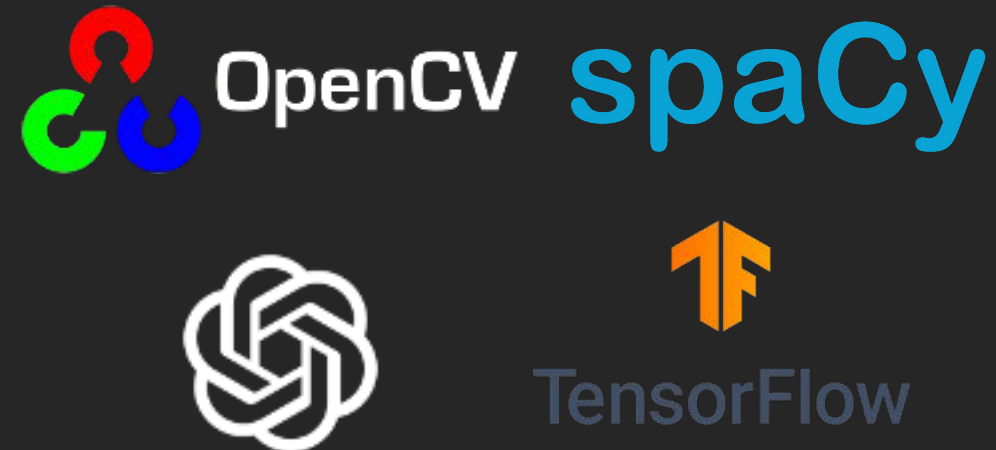

With augmented reality (AR) technology, Myopia helps users easily organize their furniture and belongings.

## EFFACE

Efface uses machine learning and deep learning to enable automatic object replacement and facial reconstruction.

## COMPETENCIES

# SERVICES WE OFFER

---

## CUSTOM SOFTWARE DEVELOPMENT

We deliver tailored software solutions that optimize cost, time, and meet your specific business needs with high-quality results.

## MOBILE APP DEVELOPMENT

We build scalable, user-friendly apps for iOS and Android using modern frameworks, ensuring seamless performance from concept to deployment.

## DEVOPS SERVICES

Our DevOps services streamline software development by enhancing coordination, improving processes, and reducing costs across departments.
