HR SOFTWARE DEVELOPMENT PROJECTS

Electrician Workforce Exchange System

- **Client:** Australia
- **Time:** 02/2024 - present
- **Man-month:** 6
- **Communication channels:** WhatsApp
- **Description:** A centralized platform for representatives from construction companies to efficiently manage and exchange their workforce by offering a comprehensive suite of tools designed to enhance hiring process.

Technologies used:

- Front-end: React
- Back-end: Node.js
- Database: MongoDB
- Cloud: DigitalOcean

HR SOFTWARE DEVELOPMENT PROJECTS

Electrician Workforce Exchange System

○ Main features:

- Easily post job openings, reach and claim qualified labour ready.
- Find and supply skilled professionals directly, tailored to each project's specific requirements.
- Keep all essential documents, certifications, and insurance details in one secure place.
- Generate invoices directly within the platform, streamlining administrative tasks.
- Foster trust and reliability within the community by sharing and reading feedback.
- Chat directly with employers and system admins for better collaboration.

The image displays three screenshots of the Electrician Workforce Exchange System interface:

- Write A Review:** A form for providing feedback on a project. The project name is "Horizon Lightway Office Complex Electrical Upgrade". The form includes questions such as "Is the job complete?", "Was the job completed to your satisfaction?", "How punctual was the team?", and "How knowledgeable was the team in addressing your inquiries?". It features sliders for satisfaction and punctuality, and radio buttons for completion status.
- Filter:** A modal window for filtering search results. It includes sections for "Level of Experience" (with buttons for Trade Assistant, 1st year Apprentice, 2nd year Apprentice, 3rd year Apprentice, 4th year Apprentice, Adult 1st year Apprentice, Adult 2nd year Apprentice, Adult 3rd year Apprentice, Adult 4th year Apprentice, and Qualified) and "Distance" (with a slider from 0 km to 10 km). Buttons for "Reset Filter" and "Apply" are at the bottom.
- Chats:** A mobile chat interface showing a conversation with "John - Horizon Lightway Office...". The chat history includes messages like "in iaculis nunc", "perfect!", "integer vitae justo eget magna", "tellus rutrum tellus pellentesque eu tincidunt", "si", "elementum integer enim neque", and "ac auctor augue".

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

The image displays three main components of the HR software development project:

- Job Portal Interface:** Features a search bar with the text "What are you looking for?", navigation links (Home, Job Listing, Job Alert, Recommended Jobs, Create AI-Friendly Resume, Recruiting, Sign Up, Login), and a sidebar menu with options like Staff Management, Documents, Logs, CMS, Portal, SEO, Company, Email, Reports, Setting, Job Seeker Listing, and Jobs.
- Candidate Profile (Yahia Hosam Rasmy):** A detailed profile card with sections for:
 - Experience:** Includes roles at PresentCare, ExpertCart, and Midsworld, Inc.
 - Education:** Nelson University, Bachelor's Degree in Computer Science.
 - Interests:** Reading, Cooking, Photography, Environment, Volunteering.
 - Design Skills:** User Interface, User Research, User Testing, Usability Evaluation, Google Analytics.
 - Business Skills:** Agile, Wireframing, Competitive Analysis, SWOT Analysis.
 - Personal Information:** Date of Birth: 4 Feb 1999, Location: Doha, Qatar.
- Dashboard:** Shows a summary of "Total Companies: 3" and "Total Users: 94". It includes filters for Company, Status (Active), Country, and Email. A "BOOLEAN SEARCH" section provides examples of search queries. A table at the bottom lists job records with columns for Job No., Entity/Specialty, Position/Location, Vacancies, Applicants, Applicant Status, Salary, Assigned to, Job Status, Resume Nominated, Show in portal, Updated On, and Actions.

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

- **Client:** Singapore
- **Time:** 2020 - present
- **Man-month:** 150+
- **Communication channels:** Slack
- **Description:** Rebuild an ATS system for enhanced user-friendliness, featuring upgraded tools for both job seekers and recruiters. We also leverage Machine Learning models to autonomously scrutinize and understand resume content, ensuring critical details are identified.

Technologies used:

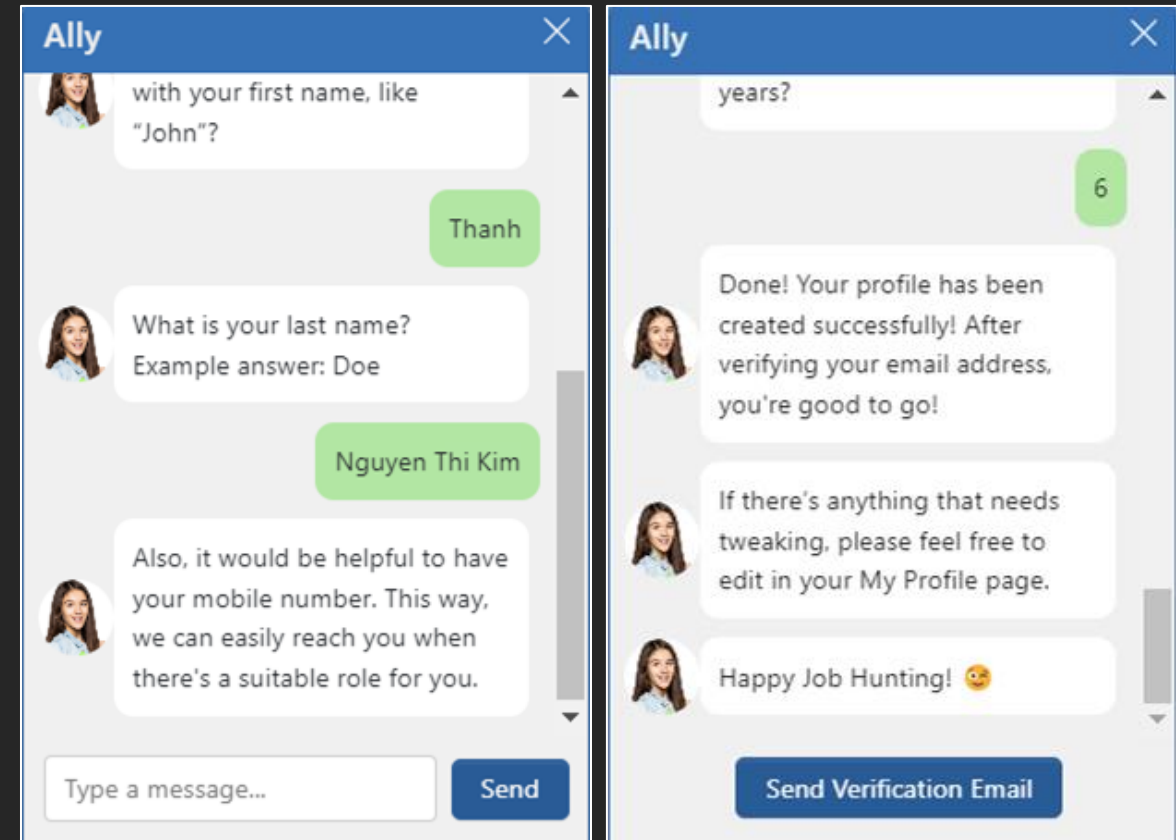

- Front-end: Vue.js, Nuxt.js
- Back-end: Node.js
- Database: PostgreSQL
- Cloud: AWS Lightsail, S3
- Machine Learning: NLTK, BERT, SpaCy, N-gram, OCR, Context learning

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

○ Job Seeker – Main features:

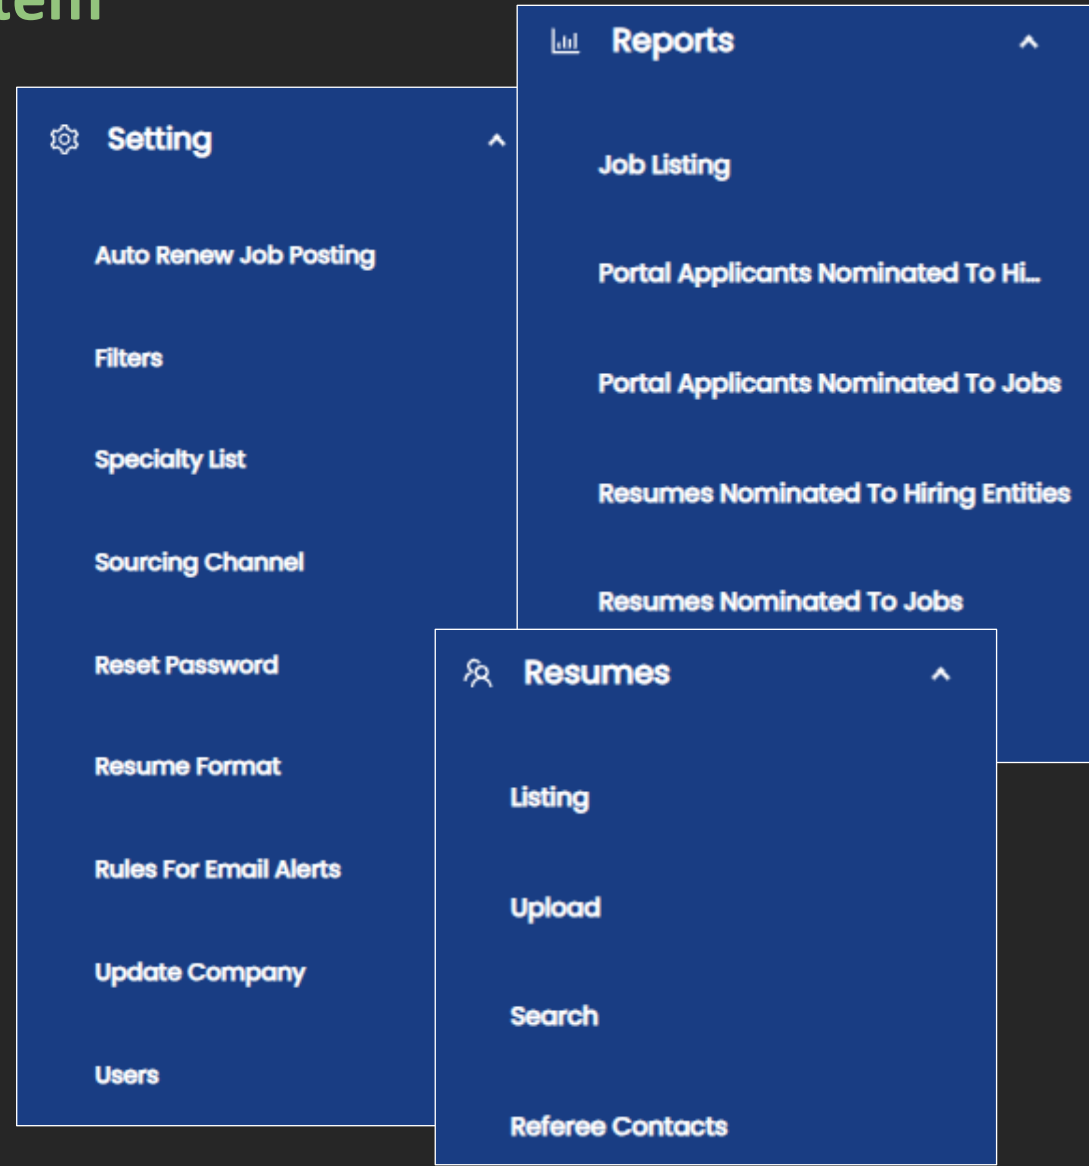

- Create Job Seeker profile with the assistance of ML-Based Resume Parser & AI Chatbot.
- Search and apply for jobs of interest.
- Save favorite jobs to come back later.
- Get prompt of recommended jobs.
- Create AI-Friendly resumes.
- Set up job alerts and receive email notifications for new job postings.
- Track job acquisition status and receive updates on application progress.

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

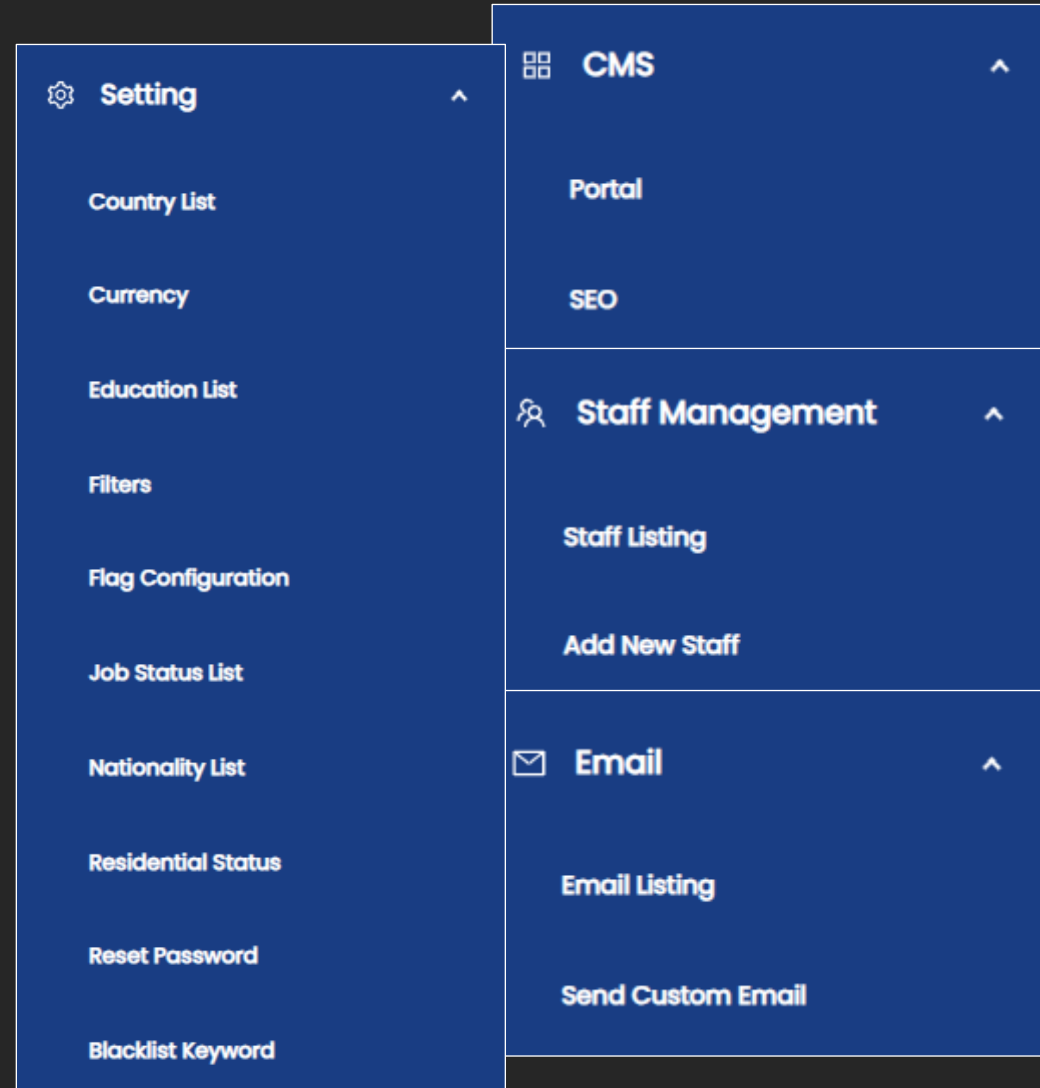

- **Employer – Main features:**
 - Create Employer profiles and post jobs on the Portal.
 - Convert candidates' resumes into branded formats.
 - Manage hiring entities, job postings and candidates with multiple configuration options.
 - Easy team collaboration and control with role-based access.
 - Get system prompt of potential candidates.
 - Assist with filtering applicants by ranking
 - Send interview schedule with calendar invite.
 - Track historical data.

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

- Platform Owner – Main features:
 - Manage in-house team.
 - Configure CMS for the Job Portal & SEO-related stuff.
 - Configure and trigger custom mass emails.
 - Trigger configuration options for multiple fields and UI elements applied in the Job Portal and Employer's system.
 - Manage Employers' subscription, revoke access, update job posting credits, resume view credits, etc.

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

- ML-Based Resume Parser:
 - Utilize Machine Learning to extract relevant job seeker data from their uploaded resumes and auto-fill system fields.

- Developed detailed FEED execution schedule, lookahead plans, manpower forecasts, productivity trends, critical path analysis, and periodic progress reporting.

FSTR OVERSEA OPERATION LIMITED (2011-2015)
 Lead Planning Engineer

- Conducted rigorous schedule risk analysis to identify threats and implemented targeted risk response controls.
- Implemented planning systems and tools aligned with project execution procedures.
- Identified schedule critical paths to prioritize activities and enable agile response from project teams during construction.
- Ensured integrity of performance reporting to support data-driven management decision making.
- Developed detailed construction schedules, lookahead plans, manpower forecasts, productivity analysis, risk assessments, progress reporting, and sponsor reviews.

HR SOFTWARE DEVELOPMENT PROJECTS

Job Seeker Helper

The image displays two overlapping screenshots of an HR software development project interface. The top screenshot shows a light-themed dashboard with a search bar at the top and a navigation sidebar on the left. The main content area is divided into five columns representing different stages: NEW (02), OPPORTUNITY (03), APPLY (02), FOLLOW UP (05), and INTERVIEW (03). Each column has a 'Add a new...' button and a list of job cards. The bottom screenshot shows a dark-themed version of the same interface, providing a different visual style for the same data.

Light Theme Dashboard:

- NEW (02):** EDF LUMINUS Solution Architect (Brussels - Belgium); PEOPLE & BABY Responsible regional adjoint H/F - (Luxemburg City Luxemburg).
- OPPORTUNITY (03):** SAINT LUC (Brussels - Belgium); CIRB (Brussels - Belgium); ENTRAIDE & FRATERNITE (Brussels - Belgium).
- APPLY (02):** ENTRAIDE & FRATERNITE (Brussels - Belgium); ERGO SAS developer (Brussels - Belgium).
- FOLLOW UP (05):** ENTRAIDE & FRATERNITE Database Manager (Brussels - Belgium); AUTOPON Designer (Brussels - Belgium); ING Angular developer (Brussels - Belgium); QUADRO Application architect (Brussels - Belgium).
- INTERVIEW (03):** ERGO SAS developer (Brussels - Belgium); ENGIE Digital Architect (Brussels - Belgium); AG INSURANCE Network Engineer (Brussels - Belgium).

Dark Theme Dashboard:

- NEW (02):** EDF LUMINUS Solution Architect (Brussels - Belgium); PEOPLE & BABY Responsible regional adjoint H/F - (Luxemburg City Luxemburg).
- OPPORTUNITY (03):** SAINT LUC Project Manager It (Brussels - Belgium); UCB Chef de projets - Logistique (Braine l'Alleud - Belgium); CEFORA PM Officer (Brussels - Belgium).
- APPLY (02):** CIRB System Ingeneer (Brussels - Belgium); JANSSENS PHARMACEUTICA Program Manager (Beerse - Belgium).
- FOLLOW UP (05):** ENTRAIDE & FRATERNITE Database Manager (Brussels - Belgium); AUTOPON Designer (Brussels - Belgium); ING Angular developer (Brussels - Belgium); QUADRO Application architect (Brussels - Belgium).
- INTERVIEW (03):** ERGO SAS developer (Brussels - Belgium); ENGIE Digital Architect (Brussels - Belgium); AG INSURANCE Network Engineer (Brussels - Belgium).

HR SOFTWARE DEVELOPMENT PROJECTS

Job Seeker Helper

- **Client:** Belgium
- **Time:** 2021 - 2022
- **Man-month:** 11
- **Communication channels:** Skype
- **Description:** A Web application where an user, as a job seeker, can manage (create/edit/archive) their job opportunities in form of job-cards with its own mailbox and calendar.

Technologies used:

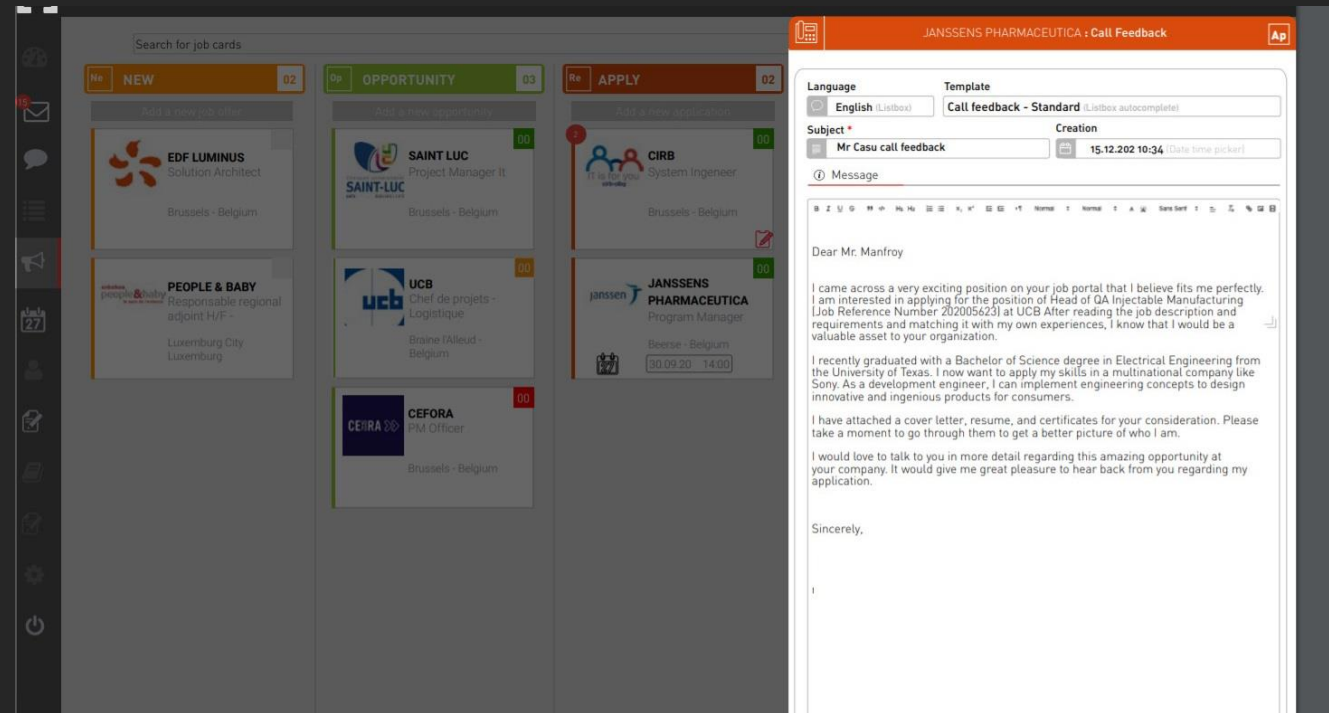

- Angular
- Google Firebase
- Node.js
- PostgreSQL
- Microservices with Kubernetes

HR SOFTWARE DEVELOPMENT PROJECTS

Job Seeker Helper

○ Job Seeker – Main features:

- Each job card stores all job-related information, including hiring company, job, contact, email exchanged, appointment/interview, to-do stuff, notes and all kind of documents such as CV, useful links, etc.
- Job cards are then presented into a Kanban board, and popular and convenient way to organize cards into proper status.
- A smart notification and reminder scheme to help job seekers not to forget to-do things when they are nearly overdue.
