Applicant Portal & Candidate Tracking System

- **Client:** Singapore
- **Time:** 2020 - present
- **Man-month:** 150+
- **Communication channels:** Slack
- **Description:** Rebuild an ATS system for enhanced user-friendliness, featuring upgraded tools for both job seekers and recruiters. We also leverage Machine Learning models to autonomously scrutinize and understand resume content, ensuring critical details are identified.

Technologies used:

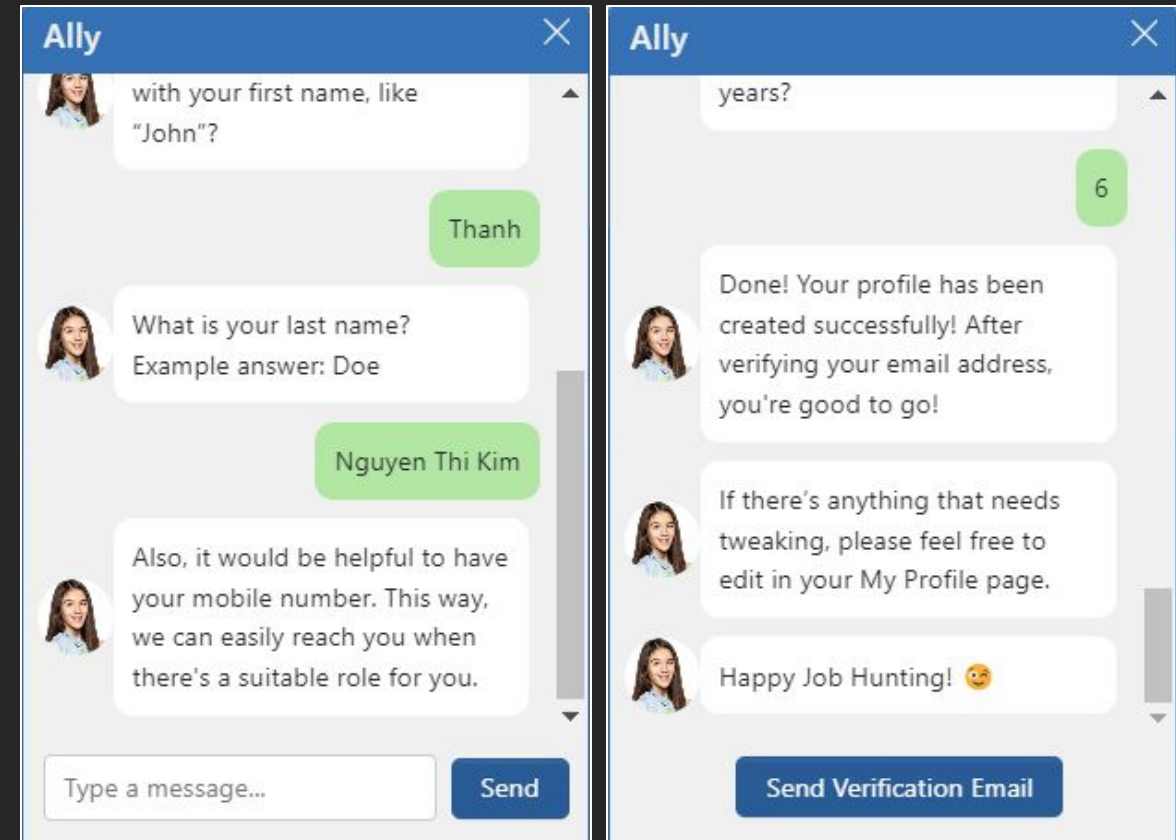

- Front-end: Vue.js, Nuxt.js
- Back-end: Node.js
- Database: PostgreSQL
- Cloud: AWS Lightsail, S3
- Machine Learning: NLTK, BERT, SpaCy, N-gram, OCR, Context learning

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

o Job Seeker – Main features:

- Create Job Seeker profile with the assistance of ML-Based Resume Parser & AI Chatbot.
- Search and apply for jobs of interest.
- Save favorite jobs to come back later.
- Get prompt of recommended jobs.
- Create AI-Friendly resumes.
- Set up job alerts and receive email notifications for new job postings.
- Track job acquisition status and receive updates on application progress.

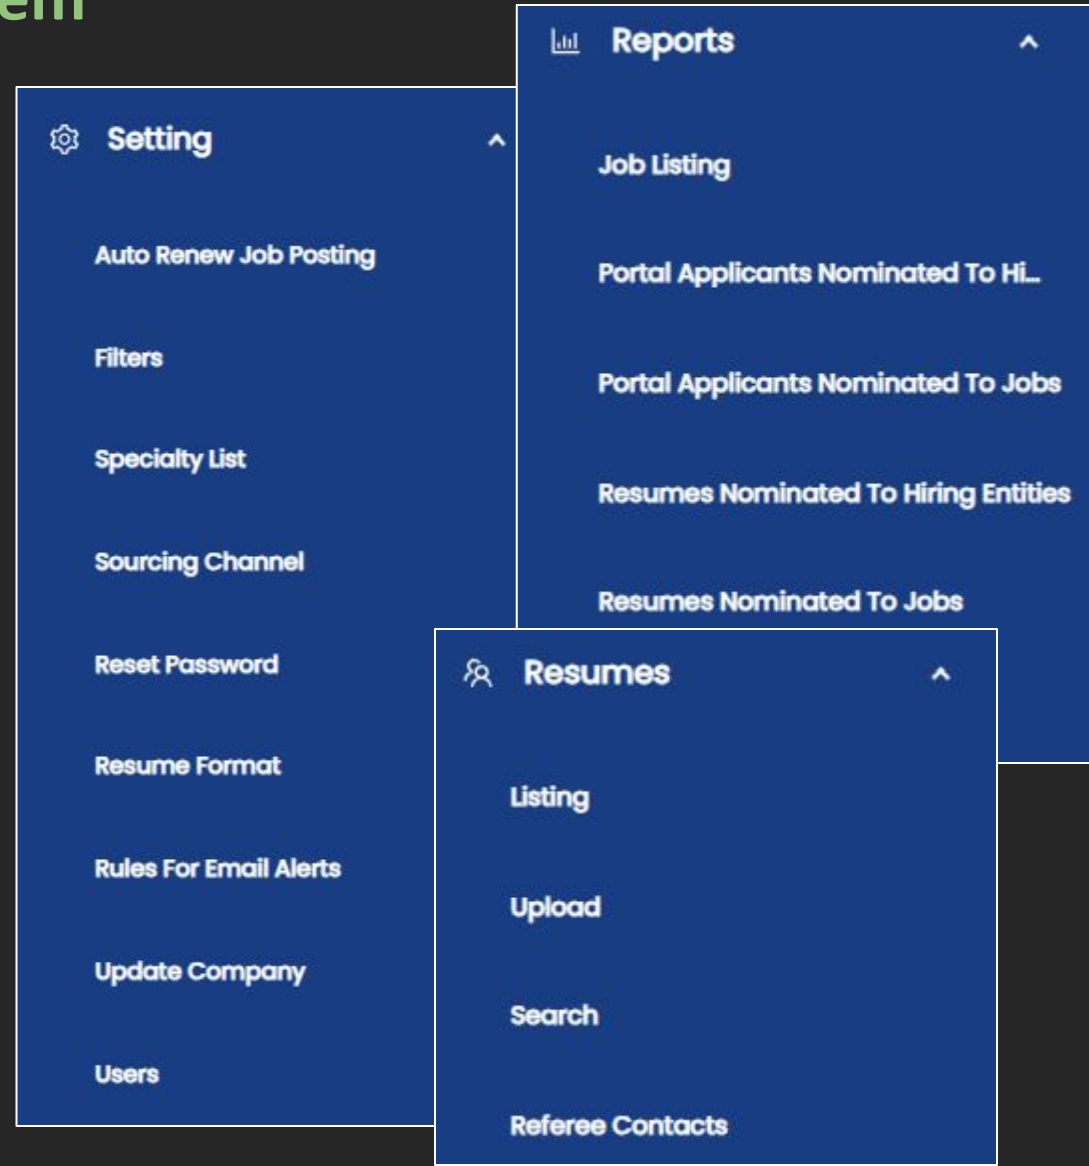

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

o Employer – Main features:

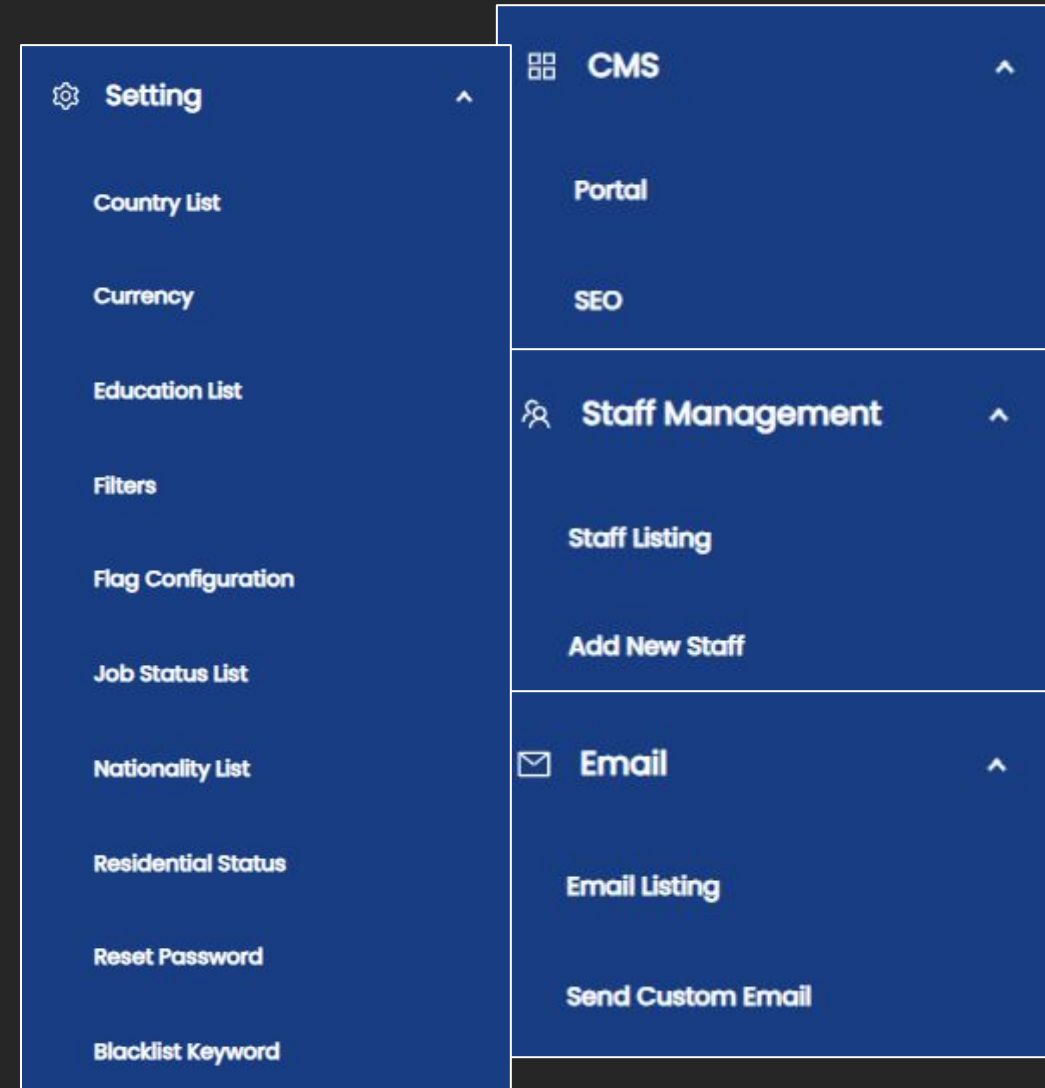

- Create Employer profiles and post jobs on the Portal.
- Convert candidates' resumes into branded formats.
- Manage hiring entities, job postings and candidates with multiple configuration options.
- Easy team collaboration and control with role-based access.
- Get system prompt of potential candidates.
- Assist with filtering applicants by ranking
- Send interview schedule with calendar invite.
- Track historical data.

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

- Platform Owner – Main features:
 - Manage in-house team.
 - Configure CMS for the Job Portal & SEO-related stuff.
 - Configure and trigger custom mass emails.
 - Trigger configuration options for multiple fields and UI elements applied in the Job Portal and Employer's system.
 - Manage Employers' subscription, revoke access, update job posting credits, resume view credits, etc.

HR SOFTWARE DEVELOPMENT PROJECTS

Applicant Portal & Candidate Tracking System

o ML-Based Resume Parser:

- Utilize Machine Learning to extract relevant job seeker data from their uploaded resumes and auto-fill system fields.

• Developed detailed FEED execution schedule, lookahead plans, manpower forecasts, productivity trends, critical path analysis, and periodic progress reporting.

FSTR OVERSEA OPERATION LIMITED (2011-2015)
Lead Planning Engineer

- Conducted rigorous schedule risk analysis to identify threats and implemented targeted risk response controls.
- Implemented planning systems and tools aligned with project execution procedures.
- Identified schedule critical paths to prioritize activities and enable agile response from project teams during construction.
- Ensured integrity of performance reporting to support data-driven management decision making.
- Developed detailed construction schedules, lookahead plans, manpower forecasts, productivity analysis, risk assessments, progress reporting, and sponsor reviews.

HR Alliance: Recruitment Companion Platform

- **Client:** Australia
- **Time:** 2020 - present
- **Man-month:** 100+
- **Communication channels:** Slack
- **Description:** All-in-one HR Platform covering all tools needed for managing every aspect of recruitment operations from recruitment and scheduling to invoicing and management.

Technologies used:

- C#
- ASP.NET
- jQuery
- SQL Server

HR SOFTWARE DEVELOPMENT PROJECTS

HR Alliance: Recruitment Companion Platform

○ Recruitment – Main features:

- Gather profiles for automated screening, selection and onboarding.
- Templates for all types of hiring.
- Effective communication via SMS & email.
- Integrated video streaming.
- Multi-factor authentication (MFA).
- CV & Resume parsing.
- Automated application email parsing.

○ Onboarding & Workflow – Main features:

- Configure role-based onboarding journey & workflows.
- Centralize all documents in a single place: Policies, employee contracts, regulations, etc.

The image displays two screenshots of the HR Alliance Recruitment Companion Platform interface. The top screenshot shows the 'My Jobs' dashboard with a pipeline view for a 'Generic Temporary Pipeline'. The pipeline stages are: My Talent Pool (0), Interested (0), Applied (1), Right to Work Check (0), Phone Screen (0), Arrange Interview (0), and Interview (0). A candidate card for 'Candidate One Carpenter' is highlighted in the 'Applied' stage. The bottom screenshot shows the detailed profile for 'Carpenter : TEST WORK : Night 2'. It includes a progress bar for the pipeline stages, with 'Applied (1)' being the active stage. Below the progress bar, there are tabs for 'Contractors', 'Historical', 'Applicant', 'Prospect', 'Prospect Pre Accepted', 'Confirm Available', 'Talent Pool', 'Interested', 'Schedule', 'Timesheets', 'Manual Invoice', 'History', and 'Kilbu'. A table lists the candidate details:

CANDIDATE	MOBILE PHONE	EMAIL	DATE APPLIED	STATUS
Candidate One		candidateone@example.com	08-05-2024	Applied

© 2024. All Right Reserved - Cookies Policy, Privacy and Terms

HR SOFTWARE DEVELOPMENT PROJECTS

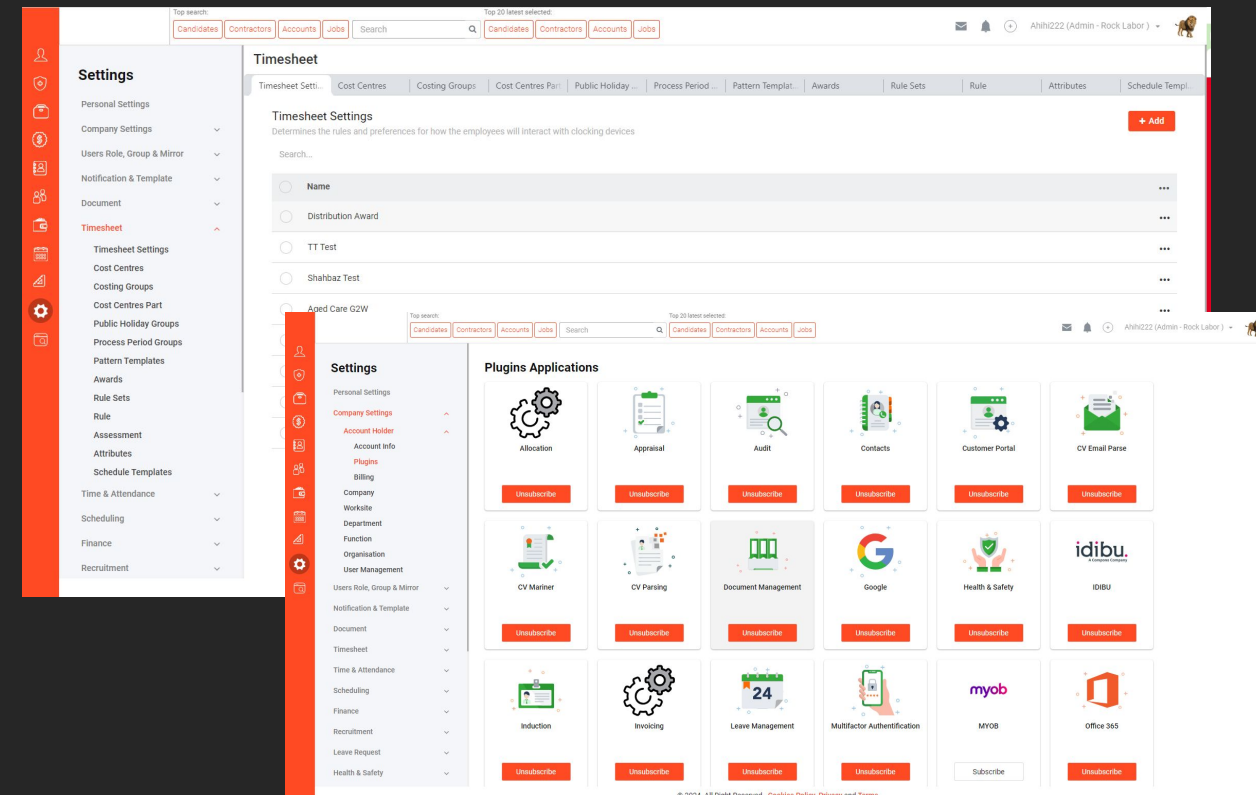

HR Alliance: Recruitment Companion Platform

○ Timesheets & Payroll – Main features:

- Automatically generated timesheets based on created schedules.
- Payroll is automatically generated from timesheets and calculated based on defined rules.
- Centralize all timesheets in one place.
- Simplifies payroll reporting and analysis.
- Secure payroll data with MFA & whitelisted IP.
- Offer date effective rules system.

○ Deals – Main features:

- Configurable deal schedules with defined rules integrated with dynamic quotes.
- User-friendly dashboard provide visual display of deals sealed, opportunities and performance.
- Automated candidate allocation based on job requirements.

HR SOFTWARE DEVELOPMENT PROJECTS

HR Alliance: Recruitment Companion Platform

○ Dashboard, Notifications & Chats – Main features:

- Configurable dashboard for tracking team attendance, performance, activity, etc.
- Real-time notifications for schedule adjustments, in-app messaging, video calls, appointments, etc.
- Synchronize calendar & notification with emails.
- View calendar in multiple views.

○ CRM, Sales & Billing – Main features:

- Provide activity management, seamless email integration, rate cards and awards.
- Maintain a comprehensive record of all interactions with every customer.
- Share contacts and candidates.
- Integrated invoicing & billing: Control templates, invoicing period, how to handle payroll tax.

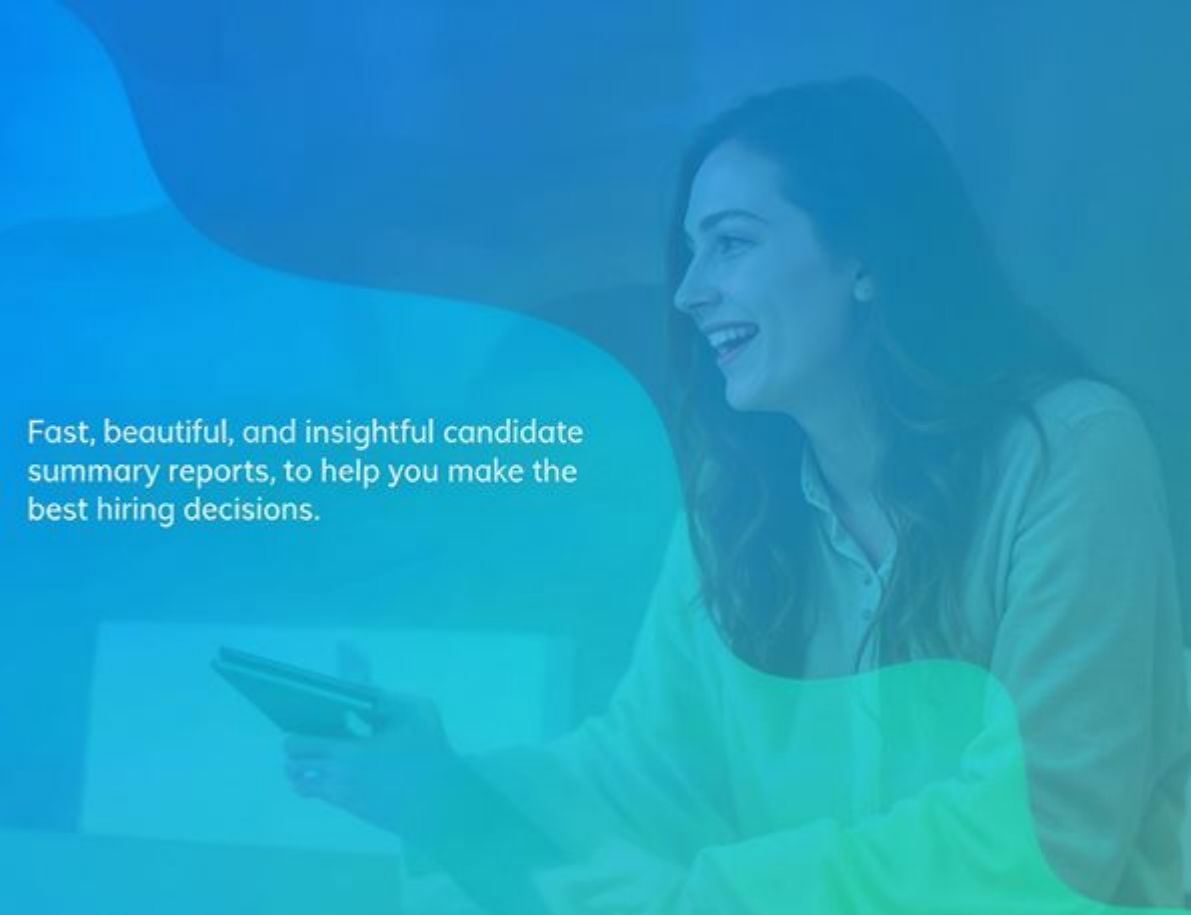

The image displays two overlapping screenshots of the HR Alliance Recruitment Companion Platform. The top screenshot shows a dashboard with a navigation bar (Candidates, Contractors, Accounts, Jobs), a search bar, and a user profile (John Button, Admin - Rock Labor). The dashboard includes a 'Sales' section with tabs for Overview, Estimate, Pipeline, and Activity. Key metrics are displayed: 1 New Contact, 517344 Opportunities, 1 Task, 2 Appointment, 46 New Jobs in this Month, and 63 New Job Positions in this Month. An 'Opportunities Report' table is visible, showing columns for ACCOUNT, ACTIVE, WON, LOST, and VALUE. The bottom screenshot shows a user profile for John Button, Rock Labor, with a navigation bar (My Details, Task, Document, Appointment, Schedule, Timesheet, TimeClock Photo, Placements, Applications, Account Filter, Communications History, Payroll Entry, Share Resume, Edit My Details). The 'Task' section is active, displaying a table of tasks with columns for Tasks, On behalf of, Regarding, Descriptions, Created Date, Due Date, and Status. The table shows several tasks, including appointments and tasks related to John Button, with statuses like 'Overdue' and 'Open'.

HR SOFTWARE DEVELOPMENT PROJECTS

Job Seeker Helper

The image displays two versions of an HR software interface for job seekers, one in a light theme and one in a dark theme. Both interfaces feature a search bar at the top with the text "Search for job cards" and a location filter set to "BELGIUM".

The light theme interface shows a navigation sidebar on the left with icons for home, messages (15), chat, notifications, calendar (27), profile, and settings. The main content area is divided into five columns representing different stages of the job application process:

- NEW (02):** Includes job offers from EDF LUMINUS (Solution Architect, Brussels - Belgium) and PEOPLE & BABY (Responsible regional adjoint H/F - Luxembourg City, Luxembourg).
- OPPORTUNITY (03):** Includes SAINT LUC (Project Manager It, Brussels - Belgium), UCB (Chef de projets - Logistique, Braine l'Alleud - Belgium), and CEFORA (PM Officer, Brussels - Belgium).
- APPLY (02):** Includes CIRB (System Ingeneer, Brussels - Belgium) and JANSSENS PHARMACEUTICA (Program Manager, Beerse - Belgium).
- FOLLOW UP (05):** Includes ENTRAIDE & FRATERNITE (Database Manager, Brussels - Belgium), AUTOPON (Designer, Brussels - Belgium), ING (Angular developer, Brussels - Belgium), and QUADRO (Application architect, Brussels - Belgium).
- INTERVIEW (03):** Includes ERGO (SAS developer, Brussels - Belgium) and ENGIE (Digital Architect, Brussels - Belgium).

The dark theme interface shows a similar layout but with a different set of job cards. The navigation sidebar is also present. The main content area is divided into five columns representing different stages of the job application process:

- NEW (02):** Includes EDF LUMINUS (Solution Architect, Brussels - Belgium) and PEOPLE & BABY (Responsible regional adjoint H/F - Luxembourg City, Luxembourg).
- OPPORTUNITY (03):** Includes SAINT LUC (Project Manager It, Brussels - Belgium), UCB (Chef de projets - Logistique, Braine l'Alleud - Belgium), and CEFORA (PM Officer, Brussels - Belgium).
- APPLY (02):** Includes CIRB (System Ingeneer, Brussels - Belgium) and JANSSENS PHARMACEUTICA (Program Manager, Beerse - Belgium).
- FOLLOW UP (05):** Includes ENTRAIDE & FRATERNITE (Database Manager, Brussels - Belgium), AUTOPON (Designer, Brussels - Belgium), ING (Angular developer, Brussels - Belgium), and QUADRO (Application architect, Brussels - Belgium).
- INTERVIEW (03):** Includes ERGO (SAS developer, Brussels - Belgium) and ENGIE (Digital Architect, Brussels - Belgium).

HR SOFTWARE DEVELOPMENT PROJECTS

Job Seeker Helper

- **Client:** Belgium
- **Time:** 2021 - 2022
- **Man-month:** 11
- **Communication channels:** Skype
- **Description:** A Web application where an user, as a job seeker, can manage (create/edit/archive) their job opportunities in form of job-cards with its own mailbox and calendar.

Technologies used:

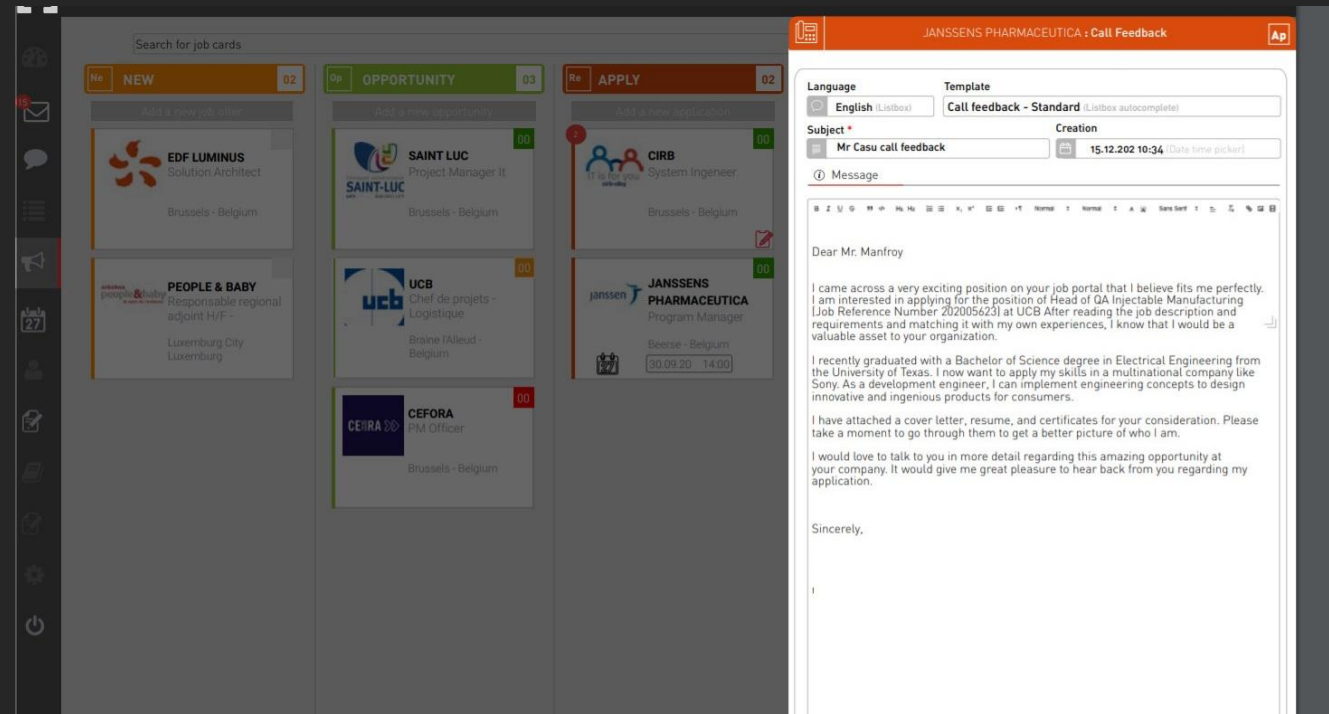

- Angular
- Google Firebase
- Node.js
- PostgreSQL
- Microservices with Kubernetes

HR SOFTWARE DEVELOPMENT PROJECTS

Job Seeker Helper

o Job Seeker – Main features:

- Each job card stores all job-related information, including hiring company, job, contact, email exchanged, appointment/interview, to-do stuff, notes and all kind of documents such as CV, useful links, etc.
- Job cards are then presented into a Kanban board, and popular and convenient way to organize cards into proper status.
- A smart notification and reminder scheme to help job seekers not to forget to-do things when they are nearly overdue.
